

## Albany Series Specifications

Manufactured using the highest grade veneers and high pressure laminates with our 'Coriander Finish' that exceeds industry standards. We can also incorporate solid surfaces into the work surfaces to meet your design needs.

Cabinet sides, drawer faces and modesty panels are made from  $\frac{3}{4}$ " industrial grade wood core material with veneer. Fully finished sides and backs are a standard feature of the Albany series.

Pull outs are constructed using  $\frac{1}{2}$ " thick 7 ply maple plywood sides and a  $\frac{1}{4}$ " thick maple plywood bottom. All components are cut, edge banded and bored using computer controlled equipment with dowel pin joinery as standard. This guarantees optimal strength and durability with the highest level of precision.

All products are available in Corianders' standard Case Goods HPL and Solid Surface finishes. In addition to our standard finish options, we also offer custom colors.
