

Taylor Series 2023 Price Guide

Effective November 1, 2023

Taylor Series Specifications

Manufactured using the highest grade veneers and hardwood solids with our 'Coriander Finish' that exceeds industry standards. We can also incorporate any high pressure laminate or Solid Surface into the work surfaces to meet your design needs.

Work surfaces are made from 1 ¼" industrial grade wood core material with 'A' grade veneer or high pressure laminate tops and gator-backed balancing sheets. One or two Metal Hat Channels are added into each top to provide additional strength and rigidity. Laminate tops are made from 1 1/8" industrial grade wood core material with a phenolic balancing sheet. Solid Surface tops use a 1", 17 ply, plywood sub top with ½" thick solid surface. Built up edges net 1 ½" thick. There is an option of two different user edge profiles in solid hardwood for the Taylor series.

Cabinet sides, drawer faces and modesty panels are made from ¾" industrial grade wood core material with A-1 graded veneers. Fully finished sides, top and backs are a standard feature of the Taylor series.

Taylor leg assemblies are constructed using 2 ½" solid hardwood and the "Taylor" taper. Cross supports are installed using Mortise and Tenon joinery. Leg assemblies are attached to the tops using a 1/8" thick steel plate.

Drawers are constructed using ½" thick 7 ply maple plywood sides and a ¼" thick maple plywood bottom. Locks are standard on all pedestal drawers.

File and Box drawer slides have a 100 lb. rating with a 1" over travel and steel ball bearings with adaptive dampening soft close.

Adaptive dampening soft close hinges are standard on all Taylor series doors.

All components are cut, edge banded and bored using computer controlled equipment with dowel pin joinery as standard. This guarantees optimal strength and durability with the highest level of precision. Modesty panels are installed using "Mod-eez" fasteners for easy, secure installation.

A stain / seal coat of high solids - water white varnish, including a UV Block, is applied, followed by four coats of 20% sheen varnish with hand sanding between each coat.

All Taylor products are available in Corianders' standard wood species and finishes. In addition to our standard finish options, we also offer custom colors.
