A fusion of classic craftsmanship with state of the art machinery sets Coriander Designs among the leaders in the commercial, healthcare, hospitality and education furniture industries. With our flexible manufacturing process, dedication to customer satisfaction and 10 year standard warranty, Coriander Designs has positioned itself above the fray.

Coriander Designs opened its doors in 1979, in founder, Ken Boudreau's two car garage. From the start, Mr. Boudreau instituted stringent quality and durability requirements for all pieces leaving his "factory" doors. As a result, Coriander Designs quickly became known for masterful craftsmanship and dedicated customer service.

In 2007 the company got a fresh perspective rooted in the same values with the change in ownership to Carly Boudreau. Ms. Boudreau spent her years working under her father's direction, learning the industry and forming relationships with suppliers.

Her leadership brought Coriander Designs into a new era with the focus on understanding and anticipating the needs of the corporate world while maintaining the company's core principles.

CARLY BOUDREAU, OWNER / CEO
