P-17 Power Module

Seamless installation. Simple to use. Completely reliable. P-17 Power Modules changes the way people access power with wireless charging. No more raceways, no more grommets and no more ugly wires. ChargeSpot is the smartest way to add power in any commercial interior. Installed under the surface and is able to charge devices with Qi wireless charging capability.

Works through Wood, Solid Surface, Laminate, Granite and other hard stones.

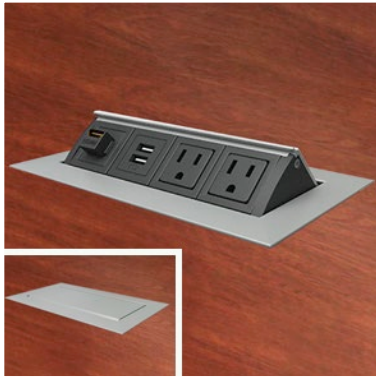

Many new smartphones have a wireless charging receiver already built in (For example, the Samsung Galaxy S8/8+ and iPhone 8/X).

Standard P-17 Power Mod Includes a single wireless charging unit

(4) P-17 Power Modules can be powered from (1) socket. (Up to 8 on one standard duplex outlet.)

UL Listed

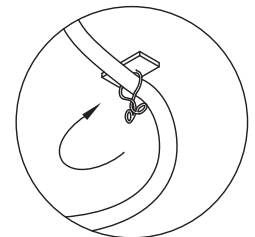

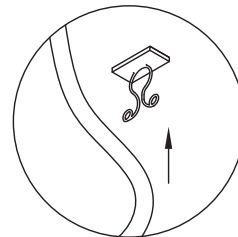

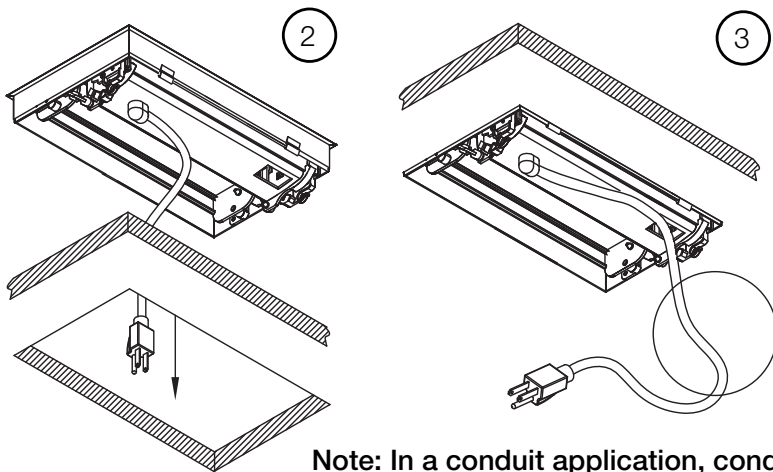

Avialable with HDMI, RJ45, RJ11, USB Pass Through, Extron Adapter

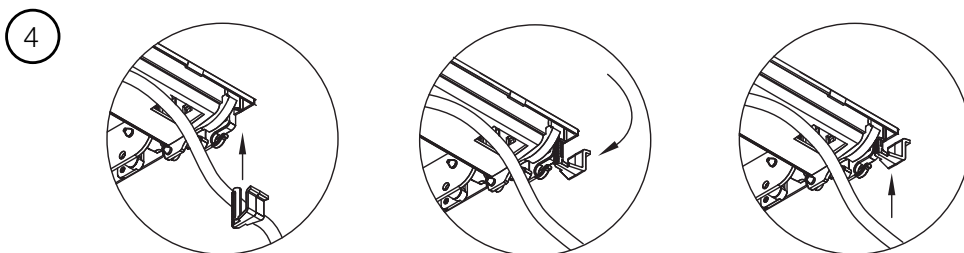

Attach 2 clips, one at each end on back of unit base.

Note: Metal clips are for use in hard surface material only as an optional mounting means

Note: In a conduit application, conduit should be supported according to local code. When managing conduit and cabling exiting the unit, ensure there is adequate slack to allow unit to open properly
