Corporate Overview

A fusion of classic craftsmanship with state of the art machinery sets Coriander Designs among the leaders in the commercial furniture industry. With flexibility and eagerness to satisfy customer desires and needs, Coriander Designs has positioned itself above the fray.

Coriander Designs began in 1979 in the two car garage of founder Kenneth Boudreau. Mr. Boudreau believed his name was on each piece of furniture that left the "factory" doors. This resulted in extreme durability, masterful craftsmanship, and pleased customers. The superior products coupled with a dedication to customer service, has made Coriander Designs a responsive partner for the industry's needs.

In 2007 Coriander Designs got a fresh perspective rooted in the same values. Carly Boudreau, second generation owner, brings an understanding of the unique contemporary demands, while ensuring the maintenance of the core values that made Coriander Designs the reliable provider by which it has become known.
