Power Options -

P-16 Power Module

The P-16 Power Module is a versatile power and charging solution designed to seamlessly integrate power and USB charging ports. Spill resistant receptacles protect against unexpected spill hazards and provide freedom to mount the unit face up in table surfaces.

P-16 Power Modules come standard with:

2 Power & 2 Powered USB with a 108" Cord and Flat Plug. ETL Listed.

*Daisy Chain Available, Please contact Factory for info & pricing

P-16R Power Module

P-16R Round Power Module is a flush mount solution with a sleek round 6" Diameter faceplate. Designed to seamlessly blend power and USB charging ports onto the tops of Round Kenzie Occasional Tables. Unique Spill Resistant receptacles provide an added level of safety in high traffic or lounge areas more prone to spills.

P16R Round Power Modules come standard with:

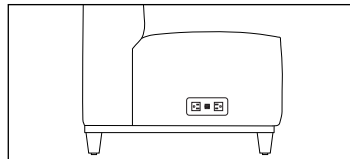

2 Power & 2 Powered USB with a 108" Cord with Flat Plug. ETL Listed.

*Daisy Chain Available, Please contact Factory for info & pricing
